A Quarter of Growth and Celebration!

Hi my dear WEN friends,

"Attitude is a choice

Happiness is a choice

Optimism is a choice

Kindness is a choice

Giving is a choice

Respect is a choice

Whatever Choice you make makes you!

So choose wisely "

Roy T Bennett

As all of you know WEN is growing and has marked its presence in our neighbouring state in Coimbatore. It's a milestone in the history of WEN. The kind of happiness I see on each WEN member's face definitely gives me a lot of satisfaction . Now all of us are looking forward to our Signature event WEN Carnival which is a WEN Foundation event and not a Trichur WEN event and lets all pitch in and support in finding sponsors , stalls etc.

Wennites will remember how well we conducted WEN CARNIVAL in Kochi. Lets strive to make the second edition even better. Let's all be there on that day to show our unity and strength too.

WEN has become a very powerful platform for women in business and it's important that we empower every WEN member. As far as possible, let's work towards enhancing each other's businesses, as almost all businesses are run by WEN members, so please remember them whenever you need a product or a service.

Many members are able to grow their business with the support of WEN members. This is not a small thing.

Let's make this world a better place with lots of love and positivity.

Love you all

All the very best to all

A season of milestones

The past three months have been nothing short of extraordinary — a true rollercoaster of learning, collaboration, and celebration.

May was a month of powerful partnerships. We were proud to step into both national and international collaborations through meaningful engagements with NIDCC and WeConnect. These alliances not only widened our network but also brought global visibility to our community.

June was all about growth. We curated an impactful residential bootcamp for 17 aspiring entrepreneurs, focused on scaling up, strategic thinking, and building sustainable ventures. It was a month where potential was nurtured into purpose.

And then came July — a truly historic moment for all of us. We marked a major milestone with the launch of our first chapter beyond borders – WEN Coimbatore. This wasn't just an expansion; it was a celebration of unity and shared vision. Members from all six chapters — Kochi, Thrissur, Kottayam, Trivandrum, and Calicut — came together to make this dream a reality.

And now, as we step into August, we do so with great excitement. We were proud to unveil the official logo of WEN Carnival – Edition 2, which will take place in Thrissur. This moment marked the beginning of what promises to be a vibrant and unforgettable celebration.

I warmly invite you all to our flagship event on August 8th at the Grand Hyatt — a day dedicated to fun, shopping, and festivity, brought to life through the combined efforts of all six chapters. It's more than an event — it's a collective expression of creativity, collaboration, and community.

As I reflect on this journey, I do so with immense gratitude. Together, we have proved that with collaboration and courage, we can truly go beyond boundaries.

Here's to more milestones, more unity, and a future we build — together.

Warm regards,

Laila Sudeesh

President, WEN foundation

Above all, the challenge aimed to foster unity, with every member participating and sharing joyful moments together. The more the merrier – and it truly showed in the energy of the entries!

The Holistic Smile Makeover

(Prof) Dr. Sreedevi S, MDS,

Managing Director,

Dr. Sreedevi's Multispeciality Dental Clinic, Hair, Skin Wellness

A smile isn't just about teeth. It's your signature, your presence, and often, your most remembered feature.

What Is a Smile Makeover? It's More Than Just Teeth. When you hear "smile makeover," you probably picture dazzling white teeth, perfect alignment, and flawless veneers. But in reality, a powerful, confident smile goes far deeper than just your teeth.

A true smile makeover is holistic—it's about facial balance, lip dynamics, emotional expressiveness, and yes, your teeth too. It's a blend of dentistry, facial aesthetics, and even psychological well-being too.

Smile Aesthetics Start with Dental Harmony

Your teeth are the pillars of your smile. Here's what matters most:

1. Tooth Shape & Symmetry

A beautiful smile starts with proportional and symmetrical teeth:

Golden proportion and esthetic rules are used to create naturally pleasing proportions.

2. Color Matching

Whitening isn't one-size-fits-all.

Your teeth should match your skin tone, eye whites, and natural lip color.

Ultra-white may work for some—but can look artificial on others.

3. Gum Contouring (The "Invisible" Art)

Laser gum contouring can correct a "gummy" smile.

A balanced gum line adds elegance, especially in high-smile individuals.

4. Digital Smile Design (DSD)

Dentists can now simulate your future smile with 3D facial scans.

See how your smile changes when you laugh, talk, or frown.

Helps create a result that's not just pretty—but emotionally accurate.

Framing the Smile with Facial Aesthetics

Your teeth may shine, but your face frames the performance.

1. Lip Volume & Shape

The lips should

Reveal the right amount of upper and lower teeth at rest and while talking

Have a well-defined Cupid's bow and border that is in harmony with the cheek and chin contours

Lip filler can add structure and not just volume, for a natural expression.

2. Balancing Facial Lines

Smile folds like nasolabial creases and marionette lines deepen over time.

Biostimulatory fillers can restore facial support without overfilling.

Soft tissue lift can enhance the smile and youthfulness.

3. Smile Symmetry with Bot.

Toxoids Small doses of Botox (one of the brands) can:

-Correct a crooked or lopsided smile

—Reduce a "gummy smile" by relaxing the levator labii superioris muscle (the muscle that raises your lips when you smile)

-Fine-tune expressions without freezing your face

4. Midface Volume for Cheek Support

The midface anchors your smile. If it's sunken, even perfect teeth can look tired.

Restoring cheek volume lifts the oral commissure (corners of the mouth)

Prevents smile sagging, especially with age

Emotional Intelligence & Smile Behavior

This is the future of smile design—aligning aesthetic work with emotional authenticity.

1. Smile Coaching & Expression Therapy

After years of hiding their teeth, many people have forgotten how to smile naturally.

Facial expression coaching can help retrain muscle memory

Restores spontaneous, confident smiling

2. A dental specialist (prosthodontist) is trained to design your smile based on your personality.

Your smile should fit who you are:

Extroverted? You may suit a broader, brighter smile.

Reserved? A softer smile with subtle curves may feel more "you."

3. Mirror Neuron Psychology

Smiles are contagious for a reason.

When you smile, others respond subconsciously—and you absorb their feedback.

A natural-looking, confident smile creates better social and professional resonance.

Your Smile is a Symphony, not a Solo performance!!

In 2025, a smile makeover is no longer just about teeth—it's about harmony.

The best results come when dentistry, facial aesthetics, and emotional design come together to create a smile that feels as real as it looks beautiful
